

FAITH

Unlimited Faith Stream can help your school deliver your RE curriculum and give your pupils space to explore their own spiritual development.

We offer:

Unlimited RE Lessons

We provide high quality RE lessons – these can be based either around the basic tenets of Christianity, or around Christian values and a Christian worldview. RE lessons can be delivered either as part of the weekly timetable as an RE drop down day, as required.

Unlimited Assemblies

We can help your school provide the required daily act of collective worship, delivering engaging and relevant assemblies on Christian values, or broader topics such as kindness, forgiveness, peace, or other issues your school may be facing. At Christmas and Easter, we can offer extended assemblies which can feed into your RE syllabus, effectively communicating the relevance of these festivals to the Christian faith.

Unlimited Church Visits

We can facilitate and resource visits to Church buildings, as part of your RE syllabus. We can arrange links with faith groups that provide services in the community, and where appropriate provide opportunities for your

pupils to gain experience volunteering in services such as groups for the elderly, toddler groups, food banks and services for the homeless.

Unlimited Prayer Spaces

Prayer Spaces can provide valuable time for your students to reflect, process and relax during the school day. They can support the spiritual development of your pupils. We can help facilitate the creation of an engaging and interactive prayer space within your school.

Unlimited Christian Unions

We can support Christian students within your school who would like to spend time sharing faith together. We can offer resources and adult support, either from a team member or a volunteer.

Bespoke Projects

In addition to the services listed, we can also work with you to offer a bespoke programme – for example, a week of assemblies on dealing with stress and a prayer space alongside, during exam week, with targeted support for some pupils via workshops or mentoring.

To discuss further, or to book any of the programmes above, please do contact us anytime.
